Mission Area: North eastern Italy  
Place: Varmo ( UD )

## Situation - Report 1

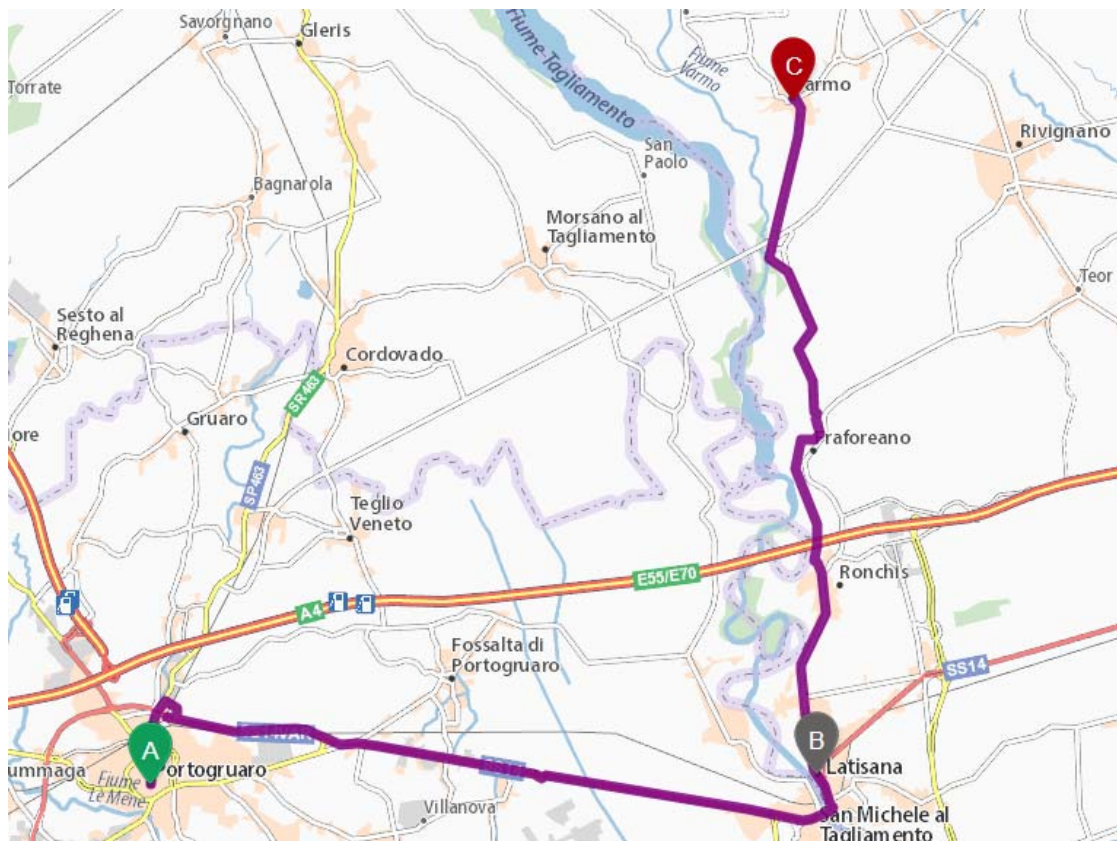

### Sit Rep 1

**For: 07.06. 2018 Time: 18:30**

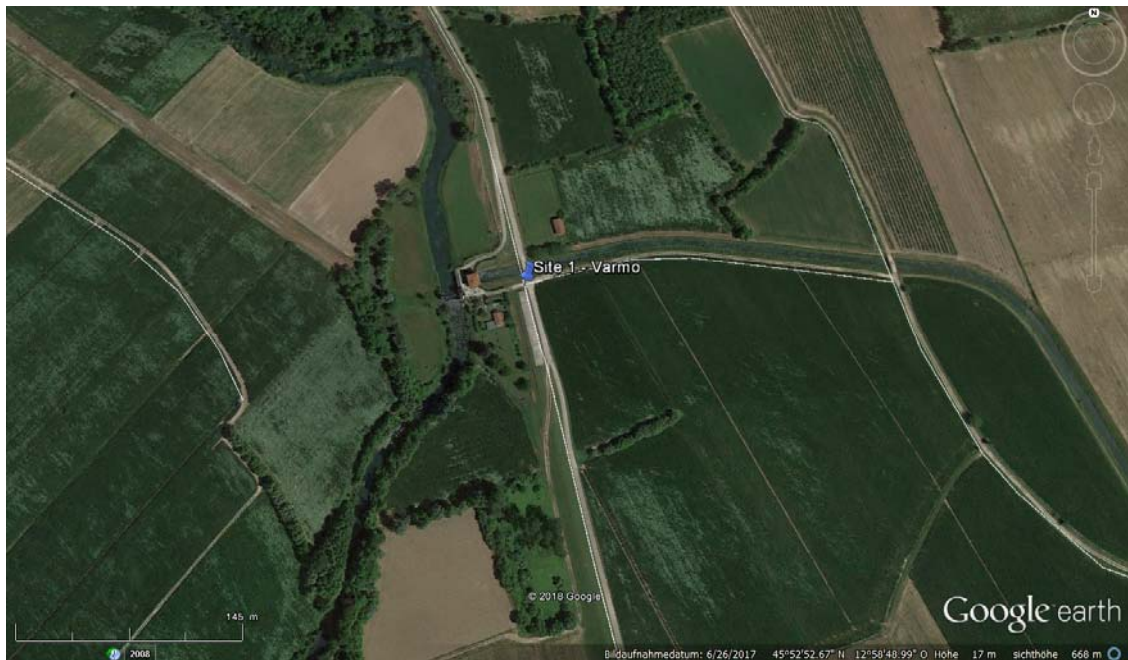

#### 1. SITUATION in mission area: (changes since last report)

**Site Name T1**  
Municipality **Varmo**  
Distance from BoO

Varmo – hydraulic station  
45°52'45.68" N - 12°58'53.38" E  
23,1 km ( 25 minutes )

HCP team is needed to transfer water from the Varmo river. During the flood event one of the bulkhead was out of work. The heavy rainfalls caused the increasing of the channels water level of the headrace close to the area and consequently the neighbours town of Varmo and the agriculture areas were flooded. There are no victims or injured people but situation is still ongoing. There is no chemical or industrial risk and no dyke failure risk.

## 2. Main ACTIVITIES: (since last report)

Starting mission at the hydraulic station next to the city of Varmo ( UD ) at 15:53. The onsite commander ordered that it is not allowed to close the street. HCP Austrian build up a bridge and solved so the problem. The total volume of 27.000 liter have been pumped during the time of 30 min. End of work have been ordered by the onsite commander at 17:30. Return to BoO, getting ready for the next mission.
